VOL. XXXIV.

MEMPHIS, TENNESSEE, MONDAY EVENING, JULY 10, 1882.

NO. 112.

We are obliged to Senator Isham G. Harris and Hon. Wm. R. Moore at Washington for various public documents. Mr. Simonton is also quite mindful in that respect.

A well written communication favoring Miss Tovel for Superintendent of city schools, is crowded out today by important news matter. The election comes off to-night and elicits much public interest.

We would suggest to the Democratic committees of this county and Democrats generally that it is about time to get up a rousing ratification meeting to endorse the nomination of General Bate and the county ticket put in the field last Thursday. The August election is close at hand and it is high time to go to work.

A rumor was current on the streets this morning that Mr. Charles G. Locke intended to run as an independent candidate for County Register. The rumor is without any foundation whatever, as Mr. Locke intends to support the nominees of the late convention from top to bottom, and will at this election, as in those of the past, use his influence to elect the entire Democratic ticket.

It is reported that there is great danger of a bolt in the ranks of the sky blue Democracy. The aesthetic uniform likely to be adopted is pronounced to be too expensive for the few high privates that were to have been mustered in. Besides it involves radical changes that one cannot become accustomed to all at once. Here is a hitch right at the outset, but perhaps a hitch in time saves nine; if so, this is a good one.

The Treasurer of the United States on Saturday called in for redemption \$16,000,000 of the outstanding six per cents extended into 31s for the past year. The amount yet to be redeemed is less than thirty millions, and they will doubtless all be cancelled long before the close of the present year. The series called in include bonds of \$50 each, numbering from 801 to 900; \$100, from 5501 to 6500; \$500, 3601 to 4150; \$100, 19,001 to 21,000; \$5,000, 6401 to 6900; \$10,000, 12,501 to 14,500.

The sky-blue aesthetic Democrats of Shelby county had a demonstration at the Courthouse Saturday. There were twelve or thirteen of the uniformed present, and perhaps twenty-five or thirty spectators. A motion was made, we understand, to appoint a committee of ten to select delegates, but it was discovered that this would leave only the Chairman and Secretary to hold the fort in the face of superior numbers, and the motion was amended so as to require only five to serve on the committee. Thus happily distributed and arranged, the solemnities proceeded. To call all these worthy gentlemen Democrats, is a liberty we would not have taken without their consent, which seems to be tacitly given. And to hear themselves called Democrats must sound strangely to some of them.

Our venerable friend, Judge A. Wright, was chosen Chairman, and his towering form loomed up above the smaller timber within the railing like unto that of Marins amid the ruins of Carthage. The Judge made the speech of the occasion. The Committee on Delegates reported fifty one names, which is fully one-half the voting strength of the Oscar Wilde Democracy of Shelby county. Some of these gentlemen have been known in times past as Democrats; others have not, to our knowledge, and still others have intimated that they would vote for General Bate, platform or no platform. The latter, however, may have changed their minds, as they have a right to do. Whatever delegation goes to Nashville to the convention to-morrow will have the honor to represent a solid and respectable constituency of twelve. The list is an interesting one to study. The legal fraternity is numerously represented. There are whole firms, parts of firms and almost whole families. There are railroad lawyers in fact and railroad lawyers in case, and there is no discounting their ability. They would be formidable in any court. No doubt they will come to the front to-morrow and run the Nashville aesthetic convention. The fact is, Memphis has a superabundance of talent in almost any line, and can not only furnish platforms to order and material to run conventions for provincial towns that have a fancy for such entertainments, but can supply the tallest kind of timber for candidates. If the convention of to-morrow will have the good taste and judgment to nominate Judge Archibald Wright for Governor, it would make the canvass one of some interest. (General Luke E. Wright is popular and strong, but rather young and undeveloped compared with his father, who is yet in full vigor mentally and physically. It would be unadulterated flattery to say

that Judge Wright or any man put forth to-morrow would poll many votes, but he would command respect and make lots of fun.

Cotton.
Sales of cotton on Saturday were 150 bales, divided; to exporters 100 to spinners 50, prices advancing 1c on all grades during the day. Sales for the week sum up 1150 bales, 750 to exporters and 400 to spinners, closing firm at a total advance over last Monday of 1c on all classes, prices going up 1c on Thursday afternoon and 1c on Saturday. Quotations as follows: Ordinary 10 1/2, good ordinary 11 1/2, low middling 12 1/2, middling 13 1/2, good middling 14 1/2, middling fair 13. Off colors 1c lower.

The New York market closed steady at 1-16c above Friday's prices, and 5-16c higher than a week ago. Sales Saturday, 550 bales; stock on hand, 169,488 bales. Futures closed firm at 9 to 19 points above the day before, and an advance for the week of 40 points on July, 36 on August, 37 on September, 27 on October, 38 on November, 37 on December and 20 to 25 on forward months.

The New Orleans market closed firm at an advance of 1c, and sales of 6200 bales during the week. Middling 12 1/2. Stock on hand 43,369 bales. Futures 40 points up during the week on July, 37 on August, and 11 to 19 points on the forward months.

The Liverpool cotton market closed steady at an advance of 1-16d during the week. Uplands 6 15-16c, Orleans 7 1/2d.

Receipts of cotton at all U. S. ports on Saturday were 1261 bales, and 1144 less than for the same day last year. Total receipts for the week ending Friday were 8461 bales, and 10,667 less than last year for the same week. Receipts at all ports since September 1st sum up 4,591,600 bales, and are 1,054,443 less than last year; also 265,124 less than the year before at the same date. Total shipments abroad this and the two previous years respectively have been 3,417,463 bales, against 4,312,750 and 3,676,814 bales. Stocks at present are 255,959 bales, against 338,064 and 257,917 last year and the year before at the same time.

The total cotton movement for the present season to July 7th, gives the quantity of cotton which had come in sight from September 1st to that time at 5,320,827 bales, and 1,121,371 less than last year. Of this 229,000 bales is set down for Southern consumption, 464,336 bales as overland movement and 4,627,491 bales as receipts at the ports. The Southern consumption is 34,000 more than last year for the same time, while the overland movement is 43,463 bales less. These figures are from last Saturday's Financial Chronicle.

The bucket shops have shut down on cotton futures for July, August and September in New York, and July and August at New Orleans. They are afraid of the anticipated squeeze.

Six firms in New York own the entire stock of cotton on hand, amounting to 109,000 bales, and at New Orleans there are only 22,000 bales, not on shipboard; while at interior towns stocks are very light; hence the manipulators are having an easy thing in their corner in operations. The leading manipulator is said to be a Memphis cotton man.

The World's visible supply of cotton on Saturday last was 1,943,984 bales, a decrease compared with last year at the same time of 272,681 bales, and an increase over the year before of 124,343 bales; also an increase of 432,697 bales over 1879 at the same date. The foregoing are Financial Chronicle figures.

LIVERPOOL, July 10, 10:30 p. m.—Cotton opened active and firmer, new 1-16d higher. Uplands, 7 1/2d, Orleans, 7 1/2d, sales today, 18,000 bales. Receipts, 6100 bales, American 5000. Futures are firm.

NEW YORK, July 10, 12:40 p. m.—Cotton firm. Ordinary, 10 1/2-10c; good ordinary, 11 1/2-10c; low middling, 12 1/2-10c; middling, 13c; good middling, 13 1/2c; middling fair, 14 1/2c; fair, 14 1/2c. Futures are weak at 1 to 4 points below Saturday's closing prices.

AN EGYPTIAN CRISIS

Vigorous Preparations to Defend Alexandria.

Admiral Seymour Ready to Bombard the City.

The Entire English Consulate on Shipboard.

The Khedive Declines British Protection.

And the American Admiral is Ready to Take a Hand.

A BREACH OF FAITH.
ALEXANDRIA, July 9.—Naval officers, who made a reconnaissance, reported that they saw the Egyptians mounting heavy guns on Marabout Island, on the western side of the entrance to the harbor. Admiral Seymour is consequently preparing a proclamation to be posted all over the city, charging the authorities with a breach of faith.

DEMANDING A SURRENDER.
The fortifications within twelve hours, and warning the authorities that if they fail to comply with this demand, fire will be opened on the forts after the expiration of a further period of twenty-four hours. Nine British gunboats are stationed outside the harbor to guard the entrance. Admiral Seymour has gone on board the *Invincible*, which will move into harbor. The British now lies opposite Ras El Tin palace.

DETERMINED TO RESIST.
The ministry continue to declare their resolve to resist. They have taken precautions to insure their safety against the Khedive in the event of troops being landed.

ARABI PASHA, formally summoned to Constantinople, has refused to obey. Two aides de camp of the Sultan left for Constantinople, accompanied by Achmed Assio and Liebid Pasha, two members of the mission. Secret negotiations are regarded.

BROKEN OFF.
The British man-of-war, *Dragon*, arrived at Suez. After the remaining Englishmen had been warned to leave Cairo, the German Consul issued a similar warning to one hundred and sixty Germans who are still there.

EVENING.
From the steamer in the inner harbor soldiers can be distinctly seen digging trenches and carrying shot from one fort to another: The English Controller-General and staff and the English Consulate will go on board a ship to-night.

MIDNIGHT.
All members of the Consulates are now on board the vessels in the harbor. The English Consulate have sent a notice to the other Consuls, advising them to notify their countrymen to quit Alexandria within twenty-four hours.

BITTER AGAINST THE ENGLISH.
VIENNA, July 9.—A dispatch from Alexandria says that at a conference of the Egyptian officers, yesterday, an aged Colonel declared that "if the Turks had we will treat them as brothers. We won't resist Austrians or Italians; but soldiers of other nations, especially English, we will oppose to the last man."

WARLIKE PREPARATIONS.
LAVALETTA, MALTA, July 9.—The ironclads *Agincourt* and *Northumberland*, of the English channel squadron, have started for Limasol, Cyprus, with two battalions and a company of engineers. The *Minotaur*, with siege trains and twenty guns, and the *Nerissa*, with stores, have also sailed from this port.

READY FOR BUSINESS.
LONDON, July 10.—An Alexandria correspondent telegraphs: Admiral Seymour is ready for instant action, pending instructions from home. No fresh complaints are made to Arabi Pasha in regard to work on the fortifications, but a simple intimation is to be sent that the fleet will open fire in twenty-four hours.

THE KHEDIVES DECLINES.
A dispatch from Alexandria reports that the Khedive declined the offer by the English to provide for his safety on board a man-of-war.

AMERICAN FLAG ON HAND.
ALEXANDRIA, July 10.—American Admiral Nicholson warned the Arabs working on the forts if they fire at him he will return the fire.

THE INDIAN CONTINGENT.
A Calcutta dispatch says the government of India has received final and definite orders to dispatch its contingent to Egypt under Sir Herbert McPherson, who commanded a brigade in the Afghan war. A large siege train is preparing at the Agra and Bombay arsenals.

NOTICE OF THE BOMBARDMENT of Alexandria was given this morning, by a letter addressed to the Governor by Admiral Seymour.

Cartwright, Acting British Consul here, has written to Raghib Pasha, President of the Egyptian Ministry, announcing the suspension of relations with the Egyptian government, and another letter to Derwish Pasha, Turkish Commissioner, declaring he will be held responsible for the safety of the Khedive.

The Eastern Telegraph Company is transferring its office to the shipboard. The ships having on board the officials of the Ottoman Bank, Credit Lyonnais, etc., have left.

The 24 hours' notice expires at 9 o'clock to-morrow morning, when the bombardment will commence. Admiral Seymour yesterday summoned his captains aboard the flag-ship, and settled the details of the bombardment. The French fleet will not participate in the bombardment.

THE FRENCH FLEET.
PARIS, July 10.—It is announced semi-officially that the French fleet will go to Port Said, in accordance with an understanding with Admiral Seymour.

AN ARTIST DEAD.
LONDON, July 10.—Hablot Knight Browne, comic designer, better known as "Phiz," illustrator of Dickens' works, is dead.

AN IDLE RUMOR.
The Gaulois professes to know that General Skobeleff committed suicide in order to escape exposure of his connection with the Nihilists.

ST. LOUIS.

Rev. Dr. Lofton to Retire from the Ministry.

A Missing Secretary Found at Little Rock.

St. Louis, July 10.—Rev. Dr. Geo. A. Lofton, pastor of the Third Baptist church, whose erratic condition on a train recently occasioned so much scandal, has resigned his pastoral. He will preach his farewell sermon next Sunday. He will also leave the ministry and it is intimated that he will go into business in this city. Frank S. McBeth, the missing secretary of the Knights of the Golden Rule, has been found at Little Rock, Ark., where he is now in custody of his friends. Mr. McBeth has left the city with a physician to take charge of him.

SHOT BY A WOMAN.

A Prominent Man of Chicago Killed by His Paraur.

CHICAGO, July 10.—At eight o'clock this morning Charles N. Stiles, for many years caller in the Call Board, and a well known man in Board of Trade circles, was shot over the heart and instantly killed by a young woman of doubtful reputation, who passed under the name of Madeline Stiles. She obtained access to his room by an artifice, when a quarrel ensued, which resulted in his death. The woman claims that Stiles, who had for some time been on terms of intimacy with her, had made her life unendurable by his dissolute habits and cruelty, that she had determined to leave him, and that her announcement of this intention precipitated the quarrel of this morning.

PITTSBURGH, July 9.—River 6 feet 5 inches and falling. Warm and clear.

Bolivar.

BOLIVAR, TENN., July 8.—Two or three gentlemen connected with the railroad here, attempted to get up a convention to-day to nominate delegates to the bolters' meeting July 11, but failed to secure any attendance. If any delegates go from this county they will have no credentials.

Murfreesboro.

MURFREESBORO, July 8.—A grand ratification meeting was held here this afternoon. Speeches were made by both wings of the party. The nomination was heartily endorsed. A spirit of enthusiasm pervaded the meeting. Old Rutherford is almost solid for Bate and harmony.

Picnics supplied with all kinds of printing at the LEDGER job printing office.

The sum of \$4483.45 has been received by Mrs. E. J. Conly, the widow of the great basso drowned some time since in New Hampshire, and the recipient has written a letter of thanks full of feeling to those who contributed to the fund. She is especially complimentary to Emma Abbott and Clara Louise Kellogg for their liberality and devotion.

Underpaid Judges.

New York Herald.
The increase of five hundred dollars to the salaries of Judges of the United States district courts, made by the bill which was yesterday reported from the Senate Judiciary Committee by Mr. Hear, and whose immediate consideration was prevented by an objection from Mr. Saulsbury, is but a poor addition to the grossly insufficient compensation now given to most of these judges. In this State, where the duties to be performed are arduous and call for a high order of judicial ability and character, the Federal district judges get only \$4000 a year each. This is just two-thirds of the amount paid the judge of a petty civil court in this city, one-half the salary of a police justice and less than a fourth of what is received by each of our Supreme Court justices. Considering the extent of their labors and the responsibilities of their position no judicial officers in the country are more miserably paid for their services than the judges in many of the United States district courts. The proposed addition to their salary is altogether too small. They are justly entitled to a much liberal advance, and until they get it they will not be filly remunerated for the services which they are required to render.
